**MONTH : AUGUST**

D/P,

Kindly note that a special occasion demands celebration to boost happiness.

The rich and vibrant festivals of India are a testimony to our diverse tradition and culture. Our age-old traditions have gifted the country with various festivals and fairs. For students, it is a great way to understand the rich heritage of India and learn about the importance of various festivals. Festivals in India revolve around Lord's birthdays, traditional myths, seasonal changes, relationships, and much more. Festivals are celebrated irrespective of religion or caste in the country, bringing people closer and creating a strong bond of humanity. Right from childhood, infants in India are part of every festival celebration in the house. So, the month of August would be observed as the "Month of Indian Festival Celebrations". Following would be the activities which would be done as a part of these celebrations in our school.
